Thematic Meeting 4: Knowledge management for smart city development

Gil-Hong Kim

Bio Summary

Gil-Hong Kim is Senior Director concurrently Chief Sector Officer for Sector Advisory Service Cluster of the Sustainable Development and Climate Change Department, Asian Development Bank (ADB). His portfolio of initiatives includes clean energy and energy efficiency, sustainable transport, water supply and sanitation, urban development, education, health and finance. He is responsible to develop and implement ADB's sector policies and operational plans, facilitate cross-sector collaboration and multi-sector solution, develop innovative approaches and new business models, and work as ADB's anchor for internal knowledge management and external knowledge partnership with the support of 7 Sector Group Secretariat.

He is the Fund Manager for Clean Energy Financing Partnership Facility (CEFPF), Water Financing Partnership Facility (WFPPF), Urban Financing Partnership Facility (UFPPF) and Health Financing Partnership Facility (HFPPF). He is also the Program Review Committee Chair of Cities Development Initiative for Asia (CDIA).

He has more than 30 years of experience in country development planning and operations, regional economic cooperation, infrastructure planning and development, and sector project management including 20 years work experience in ADB.

Gil-Hong, a South Korean national, has a Ph.D. in Economics from the University of Texas at Austin, USA.

Thematic Meeting 4: Knowledge management for smart city development

Daniel Levine

Thematic Meeting 4: Knowledge management for smart city development

Hidefumi Imura is currently Assistant President for Promotion of International Cooperation and Programs and a Professor at the Global Cooperation Institute for Sustainable Cities, Yokohama City University, and Professor Emeritus of Nagoya University. He has a wide range of expertise covering domestic and international environmental policy issues, environmental technologies, economics, and information in Japan, China and East Asian countries. His research centers on energy and material flow analysis of human activities in cities, life cycle assessment of civil infrastructures, and modeling of human and environmental interactions. He is the author of “Environmental Policy in Japan (Eduard Elgar)”, “Environmental Systems Studies (Springer)”, “Environmental Issues in China Today (Springer)” and many articles.

Thematic Meeting 4: Knowledge management for smart city development

Professor Ryokichi HIRONO, Seikei University, Tokyo and Adviser to Y-Port Center, Yokohama

Graduated from the University of Chicago in 1959, Prof. Ryokichi HIRONO, Professor Emeritus, Seikei University, Tokyo, has taught at a number of well-known universities at graduate level in Africa, Asia, Europe, Middle East, North America and Oceania. Currently, he is sitting on the board of directors and trustees at various foundations, research institutes, academic bodies, and civil society organizations in Japan and overseas. At home Prof. Hirono was involved deeply ever since 1960s in reformulating Japan's ODA and international cooperation policy in various capacities in the Prime Minister's Office and the Ministry of Foreign Affairs. Since 1970s he has been deeply involved in integrating environmental dimensions into economic policy formulation in various ministries of Japanese government. In the 1990 he took initiatives in establishing Japan Society for International Development as its founding vice president and later as president and helped to install a number of graduate schools on international development and cooperation. Also, based on his experiences at UNDP as chair of its Committee on Management Development Programme for Transition to Market-based Economy, Prof. Hirono organized in 1991 a Japan's Academic Group to Support Mongolia's Transition to Market Economy which assisted under JICA's funding Mongolia in the transition process till 2000, ranging from monetary, fiscal, foreign exchange, trade and investment policies to the privatization of SOEs. He also paved a road after the Rio Earth Summit for establishing Japan Fund for Global Environment to assist nascent and emerging NGO activities in Japan and overseas. In 1998 he joined other like-minded experts in setting up Institute for Global Environmental Strategies (IGES) to reinforce research in Japan on global environmental policies and Japan Evaluation Society to install programme and policy evaluation throughout the Government of Japan. Also, as adviser to the Office of the Prime Minister, Prof. Hirono helped in formulating Education for Sustainable Development (ESD) proposal which Prime Minister Koizumi presented as a joint proposal in 2002 at the World Summit on Sustainable Development in Johannesburg, South Africa, later adopted by UNGA as UN Decade on ESD 2005-14. Also, serving as chair of the Committee for Development Policy of the UN ECOSOC in the 1990s, he had a lot to do in initiating development and ODA evaluation, mainstreaming environmental concerns, and civil society and gender perspectives in formulating development policies and programmes at OECD/DAC, UNESCAP, AsDB, UNDP and International Development Evaluation Association (IDEAS). Since its inception in 2012 till last year, he had been president of Asia-Pacific Evaluation Association (APEA) based in Malaysia. Numerous books, reports and journal articles have been published at home and overseas. Awardee of a number of the certificates of distinction by Japanese and foreign governments, including an Imperial Award of Honours. As hobby, he loves to walk, take photographs and produce/act on musical stage performance, e.g. Our Blue Planet: Dawn over the Amazon, to encourage people especially youth to fight for social causes such as poverty reduction, human rights protection, environmental conservation and world peace without nuclear. 2016.11.03
