

## Yokohama Municipal Transportation supports the daily lives of Yokohama's citizens

Yokohama has developed as a modern city after the Port of Yokohama was opened to the world in 1859. Yokohama Municipal Transportation began operations with trams in April 1921, and municipal bus service started 1928.

In order to improve road congestion caused by economic growth, the tram was discontinued, and the Yokohama Municipal Subway Blue Line commenced operations as an urban railway service in 1972. The Yokohama Municipal Subway Green Line opened in 2008.

These Yokohama Municipal Transportation services have developed as Yokohama has grown as a city, and are used by around 889,000 passengers (\*1) every day.

We will keep striving to provide high standards of safe, punctual, and comfortable transportation services, and enhance our organizational capabilities to ensure that all passengers are fully satisfied.

(\*1: Calculated in fiscal year 2022)

### City Populations in Japan (As of January 1st 2022)

1	Tokyo Pref.	Special Wards	Approximately 9,672,000 people
2	Kanagawa Pref.	Yokohama City	Approximately 3,773,000 people
3	Osaka Pref.	Osaka City	Approximately 2,748,000 people
4	Aichi Pref.	Nagoya City	Approximately 2,324,000 people
5	Hokkaido Pref.	Sapporo City	Approximately 1,973,000 people

## Transportation Statistics (Calculated in fiscal year 2022)

		Number of vehicles in service		Total distance of operations		Passenger revenue (excl. tax)		Number of passengers	
		Annual (vehicles)	Average per day (vehicles)	Annual (km)	Average per day (km)	Annual (¥1,000)	Average per day (¥1,000)	Annual (1,000 Passengers)	Average per day (1,000 Passengers)
Bus	Public Service	230,571	632	25,801,407.0	70,688.8	17,617,071	48,266	110,467	303
	Charter Service	9,055	25	640,376.0	1,754.5	362,494	993	1,812	5
Bus Total		239,626	657	26,441,783.0	72,443.2	17,979,565	49,259	112,279	308
Subway	Blue Line	70,068	192	30,560,327.6	83,726.9	29,345,948	80,400	174,661	479
	Green Line	19,686	53	6,588,485.2	18,050.6	6,385,068	17,493	46,243	127
Subway Total		89,754	245	37,148,812.8	101,777.5	35,731,016	97,893	212,306	582
Total		—	—	—	—	53,710,581	147,152	324,585	889

\* When transferring the Blue Line and Green Line the subway passengers are counted as one passenger, so the number of subway passengers does not match the total number of passengers on each line.

## Municipal Bus Service

### Outline of Bus Service

The operation network of the municipal bus service focuses on the central area of the city, and has connectivity with railway stations to create a broad transportation network. Municipal bus service has undergone improvements to fit citizens' needs, including revisions of bus routes in accordance with transportation demand and new road construction. Accordingly, the ridership of municipal buses is a daily average of around 310,000 people.

The City also has special bus routes for tourists such as “Akai Kutsu.” “Akai Kutsu” buses have a nostalgic retro design, and tour around sightseeing spots in the Yokohama Bay area. Other examples of special tourism buses include “BAYSIDE BLUE.”

As of March 31st, 2023

Overview of Municipal Bus Service	
Total Kilometers Covered	517.1 km

▲ Akai Kutsu

▲ BAYSIDE BLUE

\* Fixed sum per route. Excluding special routes.

## Municipal Subway Service

### Outline of Subway Service

The Municipal Subway plays an important role as a foundation for creating a vibrant city, and connects the city center with outlying areas. The daily ridership has grown to approximately 580,000.

The Blue Line (Yokohama Municipal Urban Railway Lines No. 1 and No. 3) has been extended since operations were started in December 1972. It currently consists of an entire length of 40.4 km between Azamino Station and Shonandai Station, and cooperates with fixed-route bus services and other railway lines operated by private companies to form a wide-area transportation network that plays an enormous role in the development of the city as a major means of transportation for Yokohama.

In addition, operation of the Green Line (Yokohama Municipal Urban Railway Line No.4), which runs east and west through the northern part of Yokohama, started in March 2008. This line spans 13 km and runs from Nakayama Station to Hiyoshi Station while connecting with the Blue Line at Center Minami Station/Center Kita Station, and has drastically improved access to central Tokyo and northern residential area of Yokohama.

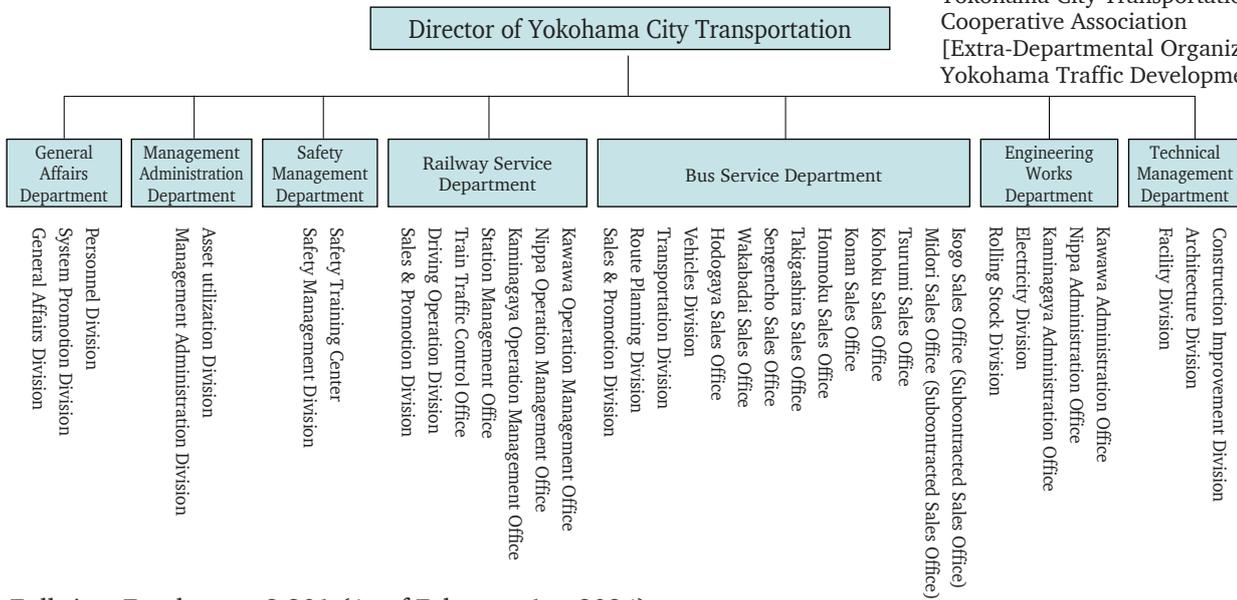

As of March 31st, 2023

		Blue Line	Green Line
Area Covered		Azamino - Shonandai	Nakayama - Hiyoshi
Kilometers Covered		40.4 km	13.0 km
Number of Stations (Number of aboveground stations)		32 stations (5 stations)	10 stations (3 stations) Center Kita and Center Minami use the same station
Time Required		68 minutes (60 minutes on the rapid train) * Excluding rush hour	21 minutes
Weekday Operation Frequency	Morning Rush	4 minutes 40 seconds	3 minutes 30 seconds
	Daytime	8 minutes 30 seconds - 10 minutes	10 minutes
	Evening Rush	6 minutes	6 minutes
